PUBLISHER'S NOTICE. 18 WORK was commenced in November, grants 1884, the computation of the author then t Doing that it could be comprised in one thousand the wor four hundred pages, and would conung two years. Many unlooked for obstructions, obietly of a typographical nature, materially retarded the progress of the work in the first instance, and these being overcome, the author discovered that he had underestimated the extent and the importance of letter to the year task he had undertuken, and that it would occupy fully double the time and space which he had at the outset computed. The publication of a work of such magnitude, and presenting so many and such varied obstacles. seldom falls to the limited resources of one single individual, as onours in this case. The first part of the work is now issued, partly at the request of the author and partly to afford the Foreign Community of China an opportunity of extending that assistance to the publisher, which under the Demity circumstances is usually so freely accorded. The price of the book complete, will be \$30,

and it will be published in four parts at \$7.50 Geo. J. each. But this objection presents itself to the Henry gale of the parra separately, should the purchaser of one or more parts not take the others, a number of incomplete, and consequently valueless, copies will be left on the publisher's hands. To remedy this objection, in consideration of the circumstances already alluded to, it is hoped that those who see fit to patronice the undertaking by purchasing the first part, will not object to signing an engagement to take the remaining parts as they appear, or should they prefer it, to pay for the entire work in advance. Missionaries supplied at Trade Price. Daily Prace Office, Hunghoug, 15th Oct., 1866 OTIOE is hereby given, that the THIRD
